

WOMEN'S SKILLET TOSS

(Fundraising Sport)

The Women's Skillet Toss is a distance competition, which involves the throwing of a specially fabricated and weighted 3 ½ pound steel skillet. Different techniques and the steel skillet's aerodynamic behavior are involved in the resulting tossing distance. Two attempts are permitted. This is not an Olympic sport yet, but who knows.

Are you up to the challenge? Take on a friend or a group. Perhaps your company would like to challenge a competitor? Give it a try and you might win a prize. Proceeds will benefit Habitat housing projects.
